

# H & S. More discussion than ppt!

Dave Johnson

**Catchment  
Based Approach**  
*Partnerships for action*

# H&S key points

## Pre-requisites (there are others)

- PPE
- Construction phase risk assessment
- Method statements
- Utility search
- Site induction and signing in
- Record of qualifications
- Confidence to stop work

## Common risk.....

- Excavations over 0.6m deep
- Supervision => First day
- Utilities => C.A.T.
- Falls > 1.2m
- The public
- Contractors who argue

# Training and resources

- Q: Do you want EA CDM training? Let me know.
  - Solihul Date 5/6<sup>th</sup> March
  - Bristol Date 20/21<sup>st</sup> March
  - Chelmsford 13/14<sup>th</sup> Feb
- Q: There are other EA courses? Do we want to aim for a joint training program?

# Training and resources

- Working safely and managing safety
  - Q: *De-minimus* for delivery staff?
- H&S Professional for advice
  - Q: Does everyone have access to one?
- All organisations have their own resources so we don't want to create a CaBA version?
  - Q: Or do we?

# What do you need. Top three things to improve H&S within CaBA.

## ➤ Open H&S culture (definitely)

- What next. To make this happen

## ➤ Near misses... (possibly)

- How well do we do this?
- What next.

## ➤ Or other ideas

- EA training
- Standing item on agenda
- Website resources
