

Who are 'The National Flood Forum'?

-  Helps people to prepare for flooding
-  Helps them to recover their lives when they have been flooded
-  Works to ensure that flood risk communities are at the centre of policy making and operational delivery

We want to know your opinions

- CaBA NSG and The National Flood Forum (NFF) are researching the relationship between CaBA partnerships and flooded communities.
- We have issued a survey to gather your thoughts and opinions about the impact of engaging Flood Action Groups or flood risk communities as stakeholders on a CaBA partnership.
- As an independent organisation, we are aiming to understand your experiences, issues and views on engaging communities at flood risk.
- **Your thoughts are important**
- It would be great if you can leave your contact details with me so I can share the survey link with you.
- Please contact me on details given on next slide for further information and rationale of project.

Thank you
